Graduate service assistant (Fall 2018) wanted for a study to develop a measure of the food environment for people with mobility impairments. Learn about how stores, restaurants, and food delivery services, help or hinder healthy dietary habits for vulnerable populations.

Graduate students will work **20 hours/week. Hours are flexible** and can be completed anytime between 8am-5pm on Monday through Friday. Some evenings may also be possible. Questions? Contact Anel Arriola at (602) 496-2011; a.arriola@asu.edu

**Benefits you gain**

- Experience working with community partners across the USA.
- Possibility to present information from the study at conferences.
- Possible co-publications.
- Letters of recommendation.

**Skills you will learn**

- Training in qualitative and quantitative data collection, data entry (SPSS, Excel) and triangulation.
- Learning about measurement reliability and validity.
- Training in citizen science participatory research methodology.

**Faculty:** Rebecca E. Lee, PhD, Professor, Center for Health Promotion and Disease Prevention College of Nursing & Health Innovation

**To apply**, send a CV/Resume, unofficial transcripts, and short statement of interest to Anel Arriola at a.arriola@asu.edu
